THE VOICE OF THE SEDONA CAR CLUB—PUTTING DEAD TREES TO GOOD USE

The temperatures aren't the only things hot in Sedona this summer!

Remember those pesky analogies that were test questions in high school English class. Well, try this one. "Chilton's Repair Manual is to autos as _____ is to fixing our country." There, now that I've worked something on cars into this article, we can get on with the acclaimed Tire Tracks® summer reading list. Filling in the above blank became a lot easier with the rising popularity of two hot books at the top of the charts....one old and one new. They both elucidate clearly a prescription for reversing America's decline toward less freedom and a more powerful central government...the exact antithesis of the principles upon which this country was founded.

First, the old, The 5000 Year Leap: A Miracle That Changed the World, by W. Cleon Skousen. Its basic premise is that, for many years in the United States there has been a gradual drifting away from the Founding Fathers original success formula. This has resulted in some of their contributions for a free and prosperous society becoming lost or misunderstood. Therefore, there has been a need to review the history and development of the making of America in modern times. Although I have only completed several chapters as of this writing, it is totally absorbing in all of his- tory. It begs the question...why mess with a winning formula. Just learning what the founders unique and how they achieved unparalleled success in building this nation clearly explains the ineffectiveness and incompetence of most modern day politicians. You'll have to read it to find out for yourself.

The second just published editor's pick is, Liberty and Tyranny by Mark Levin. Liberty and Tyranny was released on March 24, 2009 and enjoyed 2 weeks as the New York Times #1 bestseller. At a time considered by many to be a critical juncture in our nation's history, its success attests to the new-found political consciousness of Americans. It also demonstrates in dramatic terms the extent to which conservative

thought is still a strong continuing presence in our society despite the tide of liberal-power of last year's elections. The great 'Liberty and Tyranny' lies in the fact that it centers on ageless, timeless principles--the principles which manifest themselves around the globe. Levin lays out in exquisite detail their origins and the objective evidence for why they work. On the opposite side are "Statists": those who worship government in the government who want to expand its power in truth, infinitely. Statism is what puts us under the iron fist of tyranny. Levin concludes with a manifesto on how to restore the country to its founding principles. *Editor's Note — Sally Peck was indisposed for this month's edition but returns next month..*

Chihuly Definitely a "Glassy" Act

Clockwise Left—The Perpetrators. Next — there is no truth to the rumor that Al Moss kissed this frog attempting to turn it into a three wheeled Morgan. Bottom right— Three Amigas and well....you fill in the blank. Bottom left — Club member takes opportunity to relieve self clandestinely. Middle left — A Cactus Bloom between two prickly pears??

A delirious Vince Monaci had to be restrained by club members as he heads toward Bocce Ball exhibit pictured below.

Above — Deb Wachs struggles to reach her emergency call button and murmurs, “I’ve gotten stuck and can’t get free.”

At Right — A pensive Tom Wachs harkens back, in his mind, to days gone by when he imagines he had a head full of hair that would rival the glass cactus behind him.

“Les Trois Mousquetaires” Traversent Des Cueilleurs De Détritus Dans Un Spectacle De Solidarité Pour Nettoyer La Route

—this French headline brought to you as a public service to get Americans thinking in the right direction.
—translation...”the three musketeers cross litter pickers in a show of solidarity to clean the highway”

In the War on Trash news front, the recently, newly installed Club administration, has accused Captain Trash Bradley of unlawfully detaining Club members as Trash Pickers and subjecting them to Tortuous Trash Detail (TTD) on highway 89A. In response Captain TB characterized the treatment as a case of Harsh Trash Collection Techniques (HTCT)

*All For One
and One
For All &
Every Man
For Him-
self, - didn't
the three stooges
say that?*

and that no one was made to feel uncomfortable. Opponents said that using TTD techniques would draw more Trasherists to the cause of littering Hwy 89A and that eliminating TTD and HTCT would make all the Trasherist drivers on 89 love us and stop trashing it. Captain TB said, poppycock, the Trasherists hate our way of cleanliness and want to

destroy 89A at all costs. After all Captain TB has kept our portion of 89A clean for several years, offering this as proof his methods of HTCT worked. When the Club Administration threatened to expose the whole unsavory mess with leaking memos and photos, Captain TB fired back saying no one will ever want to do his job again if his methods are questioned. The results speak for themselves. Besides members of the administration knew about these techniques before they came to power and never objected until they came to power. In the end the administration dropped its silliness after realizing that the most important thing was to keep 89A clean. However, one of Tire Tracks crack reporters infiltrated the Trash Team and obtained the nearby photos to demonstrate how Tortuous this work is and that our way of cleanliness has been preserved in this... the “War on Trash”.

In an irony befitting the only domestic automobile manufacturer to stand up to the Federal government bailout mania, it's emblem, separated from a grand machine, is unearthed on 89A as though it was a rare fossilized remnant symbolizing the self-reliance and independence of a by-gone era.

What's A B.E.A.T. ??

No, it's not a Michael Jackson song. It's the 2009 British European Auto Tour that rumbled through Sedona in April. This two day run from Phoenix to Flagstaff is in its 12th year and great fun. The tour departed Phoenix on Saturday, April, 18th, and headed toward Wickenburg. The street was blocked off for them to park their cars, have coffee and donuts and use the bathroom. They left Wickenburg toward the high desert for the twisting curves of highway 93 and 96 to Kirkland and enter Prescott from the West. There, Whiskey row was blocked off for lunch before heading over Mingus Mountain into Jerome and then down the curves to Cottonwood for another stop and water break. Then to highway 89A through Sedona and Oak Creek to Flagstaff and from there back to Phoenix. — Photos, courtesy of John Ossenfort.

The club picnic is Saturday June 13 at the Cochise ramada at Fort Tuthill park in Flagstaff. There is no regular club meeting on Tuesday in June. Rain or shine since ramada is covered. There are tables, but you may want your own chair. Come at 4 PM and food is served at 5 PM. Cost \$5 per person. Notify Larrie Currie or sign up at May meeting.
